

Anthony Robert Gresham Hargreaves (Tony)

Project manager | Civil Engineer | Contract Administrator | Site Engineer

RPEQ, NER, CPEng, B.Eng. (Civil) (Hons), MIEAust (EA)

PROFILE

I have 15 years of experience in project management, design and construction. Over the years, I have undertaken roles such as:

- ⊕ Project Manager
- ⊕ Contract Administrator
- ⊕ Superintendent
- ⊕ Site Inspector
- ⊕ Design Manager, and
- ⊕ Civil Engineer

My career has been marked by successful multi-disciplinary project delivery and collaboration with various clients as a trusted consultant. This has applied to wide range of projects generally within the infrastructure and development space.

EDUCATION

Bachelor of Engineering with Second Class Honours, Division A in Civil Engineering

Griffith University, Gold Coast Campus, 2006 to 2009

SKILLS AND QUALIFICATIONS

- RPEQ in civil and management
- Project planning & coordination
- Construction phase support
- MS word, excel and project
- AutoCAD software
- Report and bid writing
- Coordination of design teams

Key experience

2022 – 2024

Associate Civil Engineer

Jacobs | Brisbane office, Queensland

My primary role was delivery of concept and detailed designs as well as providing construction phase support. This included regular quality assurance reviews, managing sub-contracted personnel, coordinating engineering works, developing tailored solutions to site specific constraints, preparing reports and construction documentation and regular liaison with clients.

Late 2022

Team Leader – Civil Engineering

JJRyan | Brisbane office, Queensland

I was responsible for managing a team of civil engineers, overseeing project planning, design, and execution. I facilitated effective collaboration, ensuring timely and high-quality project delivery for clients during this short tenure.

Early 2022

Senior Civil Engineer

McVeigh | Brisbane office, Queensland

My time at McVeigh had me coordinating civil works for commercial and industrial sites. This included investigations into port requirements, developing sites suitable for heavy vehicle manoeuvring and haulage, development applications and associated site services.

2017 - 2021

Senior Civil Engineer

GHD | Brisbane office, Queensland

As a Senior Civil Engineer at GHD in Brisbane, I managed multidisciplinary teams on detailed design projects, covering areas such as geometric, pavement, geotechnical, environmental, and structural engineering. My responsibilities included project tracking, reporting, risk assessment, budget monitoring, and safety assurance. I also reviewed and prepared technical documentation, ensuring quality and clarity, and regularly liaised with clients and stakeholders. Additionally, I provided support and guidance to graduate engineers.

2016 - 2017

Team Leader – Civil Engineering

GHD | Gladstone office, Queensland

At GHD in Gladstone, I served as superintendent for water, sewer, and development projects, leading contractor meetings, inspecting works, and assessing documentation. I was the site inspector for multiple raises of the QAL tailings dam walls. As team leader, I managed the civil engineering team's workload and business development, and regularly liaised with council and developer clients.

2010 - 2015

Civil Engineer / Project Manager

GHD | Mackay office, Queensland

At GHD in Mackay, I managed and designed various road systems and urban development projects, also serving as superintendent and inspector. I regularly liaised with TMR, council, and developer clients, managed budgets, prepared bids, reviewed technical documentation, and ensured successful project delivery.
